Ukraine has been under siege by Russian military since February 2022, making this the first major war in Europe for decades. Though roots of this invasion can be traced back to the collapse of the Soviet Union in 1991, there has been a long history of conflict between these two countries. Currently millions of Ukrainian women, children and the elderly are fleeing into neighboring countries, leaving behind all male citizens between 18 to 60 to defend their country. As a result, Ukrainian families are being separated and the Christian church is being scattered.

All Nations' teams in Germany, Romania and the Czech Republic are busy serving the refugees flooding into their countries. This includes transporting Ukrainians to safety from the border; providing places for them to rest and helping meet basic needs including medical supplies, diapers, food, and laundry, as well as recruiting translators. They are also actively looking for opportunities to pray and share the Gospel with the refugees.

## PRAYER POINTS
