# OVERVIEW

ALL NATIONS  
INTERNATIONAL  
reaching the neglected globally • this house, the last, and the best

Tibetan people are an East Asian ethnic group native to Tibet, the mountainous region located in southwestern China, just north of India. When the Communist Chinese invaded Tibet in the 1950s, their Dalai Lama (religious leader and Emperor), along with governmental leaders and thousands of Tibetans, fled to India, where over 100,000 remain exiled today. This has caused Tibetans much suffering and suppression from communist domination and ideology. Since 2017, the Chinese government has expelled many workers from Tibet. It is currently estimated that there are less than 500 Tibetan Christians, totalling less than 0.01 percent of the population.

Since 2015, All Nations' field workers, the S\* family, have lived in Asia and worked among the Tibetan Buddhists. As an oral culture, the Tibetans have continually resisted written translations of the Bible and other culturally inappropriate formats. With this in mind, the S family has joined with a Tibetan Christian couple to produce a video series of the Bible from creation to eternity in various Tibetan languages. The video series, eventually featuring 300 episodes of 2-8 minutes duration, builds upon the efforts of past All Nations workers in Tibet, who developed religious paintings, called HisStory pictures. Currently, prototype episodes are being received with excitement by believers and with interest from unbelievers. Their hope is to provide tools that will spread the Gospel to the next generation of Tibetans.
